# EXPLORE. EXPERIENCE. CREATE.

EXPLORE the expressive traditions of Africa and the African Diaspora.  
EXPERIENCE the pageantry, prose, music, and movement.

Heritage Works, a Detroit-based cultural arts organization, celebrates the beauty and humanity of African people through music, movement and folklore. Designed to promote cultural understanding and skill development, our programs use discovery and training to encourage personal and artistic excellence.

At Heritage Works we believe:

- Cultural traditions are rich resources for broadening perspectives, promoting cultural intelligence, and developing artistic and success skills.
- Empowering individuals enables them to reach their highest mental, emotional, and physical potentials, and provides an opportunity to **CREATE** communities with a sense of worth, respect, and responsibility in its residents.

With this in mind, we offer community and youth programs that are instructional, immersive, and performance-based. These programs are for everyone and especially for:

- Youth, young artists and the culturally-curious;
- Parents, educators and youth workers;
- Professional and amateur artists;
- People with a passion for drumming, singing, and world culture.
